

Milan, 18th October 2022

On October 28, a new appointment with the DiCultHer webinars

The weekly appointments that DiCultHer dedicates to the theme of "Digital Culture as a factor in the development of the country and Europe for a new European Bauhaus continues".

After the restart of the weekly appointment which took place last week, this Friday the webinar will see alternating speakers and technicians of great importance from the world of Italian education, culture and technology. The webinar will take place on October 28, starting from 3 pm. This week will see the launch of the **"100 years from the birth of Dan Milani"** project, coordinated by Luca Toschi (UniFI) and Pamela Giorgi (INDIRE).

His figure as a priest is linked to the didactic experience aimed at poor children in the disadvantaged and isolated school of Barbiana, in the rectory of the church of Sant'Andrea. 100 years after its birth, DiCultHer, together with INDIRE and the University of Florence, will organize a series of in-depth initiatives of the distinguished educator, through a series of dedicated webinars, an online exhibition on the experience of the School of Barbiana, as well as an online view of the rich filmography dedicated to Don Milani.

Riding the wave of success achieved in the past, DiCultHer has planned a busy agenda of events, which agenda you can find here: <https://www.diculther.it/webinar-settimanali-ottobre-2022-maggio-2023>. New this year is the Badge that participants will be able to obtain at the end of each individual seminar.

#DiCultHerDigitalBadge is an essential tool for the certification of #microcredentials deriving from participation in the activities promoted by #DiCultHer: webinars, participation in #HackCultura, the Digital Culture Weeks, the Digital Cultures magazines and more.

Directed at implementing a shared European approach to micro-credentials for lifelong learning, the #DiCultHerDigitalBadge aims to allow the active participation of the reference communities in DiCultHer activities, recognizing the skills they acquire, for their personal, social, and professional development.

The Badge, an essential part of the #EdVerso protocol, was created with the aim of achieving a shared system for the enhancement of the skills, credits and professionalism acquired in the field of education and culture. It is also part of a process launched on 2 September 2019 in Matera by the #DiCultHer Association together with #LutinX (formerly Lirax), an innovative American company in the Blockchain sector. Since the #DiCultHerDigitalBadge is a tool for certifying participation in the activities promoted by #DiCultHer and its partners, it will be made available exclusively to teachers and students who participate in the various activities.
